REQUEST FOR REPORT

SYMBOL: PTITI:BMF

It is requested that the Atomic Energy Commission be furnished with twenty-five copies of the CONSOLIDATED TRANSLATION SURVEY for October 1949 prepared by the Foreign Documents Division. It is further requested that a similar number of copies of all future issues of this Survey be forwarded to this office as issued.

It is believed that this compilation will be very useful to the laboratories and contractors of the Atomic Energy Commission. We propose to make regular distribution to our major installations who will request desired translations via this office. Copies of the Survey will be transmitted only to authorized AEC personnel cleared for handling security classifications through "Secret."

The Atomic Energy Commission is prepared to cooperate fully with the other IAG agencies by contributing monthly a listing of all translations completed by the AEC and its contractors including the Brookhaven National Laboratory.
